SRINIVASH K

MCA Graduate | Fresher | Software Developer

+91 63744 07328 | srinivash20042002@gmail.com | Ranipet, Tamil Nadu, India

LinkedIn | GitHub | Portfolio

Open to New Opportunities | Willing to Relocate | Open to On-site Roles

PROFESSIONAL SUMMARY

Motivated MCA graduate with hands-on experience in full-stack web development, database design, IoT-based systems, machine learning, and AI agents. Proficient in Python, PHP, Java, JavaScript, HTML, CSS, MySQL, and MongoDB, with practical experience using AI agents and their tools and AI-assisted development tools such as Codex and Bolt.ai. Built a real-time group messenger, a home security automation system, and an ML-based electricity demand forecasting dashboard. Quick learner with strong problem-solving skills, seeking to grow into an entry-level Software Developer or Full Stack Developer role.

TECHNICAL SKILLS

- **Programming Languages:** Python, PHP, Java
- **Web Technologies:** JavaScript, HTML, CSS
- **Python Libraries & Frameworks:** scikit-learn, pandas, NumPy, Streamlit
- **Databases:** MySQL, MongoDB (server), SQLite, Oracle
- **AI & Machine Learning:** Machine Learning (Random Forest), AI Agents (hands-on experience with AI agents and their tools)
- **AI-Assisted Development Tools:** Codex, Bolt.ai
- **Concepts:** Object-Oriented Programming (OOP), SQL, RDBMS, Data Structures
- **Tools & Platforms:** XAMPP, NetBeans IDE, ESP32 Microcontroller
- **Operating Systems:** Windows, Linux

PROJECTS

EnergySmart – Electricity Demand Forecasting Dashboard | GitHub Repository

Python, Streamlit, Machine Learning (Random Forest), scikit-learn, pandas, NumPy, SQLite, Codex

- Built a Streamlit web app in Python that forecasts hourly electricity demand (6 to 168 hours ahead) using a Random Forest machine learning model (scikit-learn) trained on usage history and weather data (temperature, humidity, wind speed).
- Evaluated the model with MAE, RMSE, and R^2, and visualized actual vs. predicted consumption in an interactive dashboard with usage trends, hourly patterns, and Low/Medium/High usage breakdowns.
- Implemented user registration and login with hashed passwords, and stored each user's readings in a SQLite database, with CSV upload, manual entry, and CSV export.
- Added a Tamil Nadu EB two-month bill estimator, explanations of why usage is high or low, and energy-saving tips, with English/Tamil language support and light/dark themes.
- Used Codex as an AI coding assistant throughout development.

Real-Time Group Messenger | GitHub Repository

PHP, MySQL, HTML, CSS, JavaScript

- Developed a multi-user real-time chat application supporting simultaneous conversations.
- Implemented user profile management, authentication, and real-time message timestamps.
- Designed and optimized the MySQL database schema for persistent message and user data storage.

Home Security Server Monitoring & Automation | GitHub Repository

ESP32, PHP, MySQL, HTML, JavaScript

- Built a smart home security system integrating an ESP32 microcontroller with motion and environmental sensors.
- Developed a PHP/MySQL web interface for real-time monitoring and automated security alerts.
- Enabled remote access to live sensor data and system status through a browser-based dashboard.

WORK EXPERIENCE

Freelance Software Developer *Jun 2025 – Present*

Self-employed | Remote

- Design and develop web applications and software solutions for clients using Python, PHP, MySQL, and JavaScript.
- Handle the full project cycle independently: understanding requirements, development, testing, and delivery.
- Apply AI-assisted development tools such as Codex and Bolt.ai to build and deliver projects faster.

Web Development Intern *Nov 2024 – Dec 2024*

CodeBind Technologies, T. Nagar, Chennai

- Developed responsive, cross-browser web pages using HTML, CSS, JavaScript, and PHP.
- Collaborated on frontend and backend features in client-based project teams.
- Gained practical exposure to the full software development lifecycle in a professional environment.

EDUCATION

Master of Computer Applications (MCA) *Jun 2023 – May 2025*

Adhiparasakthi College of Arts and Science, Kalavai | Score: 80%

Bachelor of Computer Applications (BCA) *Jun 2020 – May 2023*

Adhiparasakthi College of Arts and Science, Kalavai | Score: 85%

HSC – 12th Grade *2019 – 2020*

Anne Marie Matric Hr. Sec. School, Thiruparkkadal | Score: 73%

SSLC – 10th Grade *2017 – 2018*

Anne Marie Matric Hr. Sec. School, Thiruparkkadal | Score: 82%

CERTIFICATIONS

- NPTEL Online Certification: Software Testing and Soft Skill Enhancement (2024)
- Offline Certification: Core Java Programming (2023)

CO-CURRICULAR ACTIVITIES

- Attended Barclays Life Skills training facilitated by GTT Foundation.
- Participated in National Conference on Artificial Intelligence and Machine Learning.

SOFT SKILLS & LANGUAGES

- **Soft Skills:** Quick Learner, Creative Problem Solver, Team Player, Goal-Oriented, Strong Communication
- **Languages:** Tamil (Native), English (Proficient)
